| 07/2025 – Present<br>Wyoming, USA<br>(Remote) | <b>Data Analyst Virtual Assistant</b><br><i>Public Info Access LLC</i><br>Managed the collection, research, and organization of school-related data from multiple sources while ensuring accuracy, completeness, and reliability of information. Verified and validated educational records, maintained structured databases and spreadsheets, and performed quality checks to ensure precise and up-to-date data. Conducted detailed data research, organized large volumes of information efficiently, and supported data management processes through accurate documentation, record maintenance, and strong attention to detail                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               |
| 02/2022 – 05/2025<br>Lapu Lapu, Philippines   | <b>Process Engineer</b><br><i>onsemi</i><br>Led data-driven process improvements in semiconductor manufacturing by analyzing weekly yield and loss metrics to identify trends, root causes, and opportunities for optimization. Utilized statistical methods and Design of Experiments (DOE) to troubleshoot recurring issues such as die cracks, voids, and solder contamination, achieving up to 90% defect reduction and significant yield increases. Developed automated quality control systems, replacing manual inspections to enhance data reliability and eliminate critical process errors. Translated findings into actionable recommendations, enabling both short-term fixes and long-term strategic process enhancements. Maintained and regularly updated documentation including FMEA, control plans, and work instructions to reflect changes backed by data insights. Collaborated with cross-functional teams to implement cost-saving initiatives and process upgrades, ensuring timely execution of data-informed solutions. Recognized through internal awards and technical symposiums for analytical problem-solving, continuous improvement contributions, and a strong quality mindset. |
| 07/2021 – 11/2021<br>Cebu City, Philippines   | <b>Chat Support Agent</b><br><i>eperformax</i><br>Delivered efficient and accurate customer support through the Shopee chat platform by identifying recurring issues, streamlining responses, and resolving a high volume of inquiries in a fast-paced digital environment. Applied strong problem-solving skills to analyze customer complaints, track order issues, and provide timely solutions that improved user satisfaction. Managed multiple chat interactions simultaneously while maintaining consistency and attention to detail. Developed a keen understanding of service patterns and user behavior, using insights to enhance the overall support process. Demonstrated strong written communication, patience, and analytical thinking—skills essential for interpreting data, identifying trends, and supporting informed decision-making in data-focused roles.                                                                                                                                                                                                                                                                                                                                 |
